EXPERIENCE

HiveMQ, Landshut, Bavaria, Germany — *Senior Web Developer*

OCTOBER 2023 - PRESENT

Responsible for migrating existing Jamstack Hugo/Markdown site to Storyblok/SvelteKit. Manage code base in GitHub, handling pull requests and merges linked to Netlify CI. Maintain search database in Algolia. Plan and build new components using the Storyblok JS client as well as the GraphQL endpoint. Work with marketing team to schedule and publish content. Track projects and tasks in Asana.

Cronin, Glastonbury, CT, USA — *Senior Web Developer*

FEBRUARY 2016 - JULY 2023

Work for various projects among multiple clients: PHP code for Laravel & CMS platforms; Front end work with different asset pipelines as well as JS frameworks; Refactoring old/inherited code. Daily standup to report progress and inform of any blockers, utilizing JIRA. Maintain Amazon EC2 instances, templates, and associated assets. Management of code bases using BitBucket (git) and deployments with CircleCI & Netlify.

drinkcaffeine, Madison, CT, USA — *Web Developer*

FEBRUARY 2012 - DECEMBER 2015

Oversaw development projects for four main clients, maintained web sites running on a variety of CMS software in LAMP and .NET environments, reviewed assigned work prior to committing and moving live, and conducted weekly status meetings with clients. Performed development work in PHP and C#/VB, occasionally with Ruby. Front-end work utilizing HTML/CSS/JS with and without supporting libraries.

Apple, Manhattan Beach, CA / New Haven, CT, USA — *Genius*

JUNE 2005 - DECEMBER 2011

Assisted customers with problems for both Apple computers and mobile devices. Performed hardware and software repairs on customer machines as quickly and efficiently as possible. Managed case notes and customer interactions. Assisted managers and salespeople, mentored coworkers, and kept up to date with all of the Apple product line. Served as Lead Genius, running technician schedules and mentoring coworkers.

SKILLS

Basic: HTML, CSS, JavaScript, TypeScript

Project Management: JIRA, Asana, Confluence, GitHub, BitBucket, GitLab

Backend: Shell scripting, GraphQL, PostgreSQL, MySQL, MariaDB, SQLite, JSON, Markdown, Node.js, PHP, Apache, Nginx, VPS, AWS, Circle, Netlify, Vercel

Frontend: SASS, Tailwind, AlpineJS, Angular, React, Vue, Svelte, Algolia, Sendinblue, Kwesforms

Kits: Astro, SvelteKit, Nuxt, Gatsby, Next, Laravel

Accessibility: ARIA tags, motion/contrast/other media queries, semantic markup accessibility trees

CMS: Storyblok, Contentful, Sanity, DatoCMS, Ghost (both managed installs and VPS installs), WordPress

HCAI — *https://www.hcaillc.com*

A healthcare site with information, blogs, and HIPAA-compliant forms for a companh focused on LGBTQIA+ health. It uses Storyblok as the content source and Nuxt to render the pages. The forms are powered by Kwesforms. Deploys with Netlify.

Kiwis by Beat! — *https://kiwisbybeat.net*

An homage site to an artist friend who disappeared in 2016 and left behind many fans who yearned for an easy place to find his comics and artwork. The content is in Markdown files, and rendered using Astro. Due to its size, I host this on a custom server.

Author Site — *https://mvc.ink*

The site for my writing, converted from a plain HTML template. The CMS is Storyblok and the pages are rendered with SvelteKit. I deploy the site using Netlify.

Book Appendix Site — *https://appendix.mvc.ink*

An ever-evolving appendix for my stories, with an ability to show/hide spoilers. Content is managed via a Laravel backend I created that edits Markdown files. The pages are rendered via NextJS and deployed via Vercel.

Chegg — *https://www.chegg.com/about*

A migration from regular WordPress to headless WordPress rendered with Nuxt, plus some new features. Deployed via Circle.

Juniper & Elm Quilts — *https://www.juniperandelmquilts.com*

My wife's quilting site, converted from SquareSpace to Storyblok & Nuxt, utilizing SendInBlue for email signups.

The source code for many of the projects above can be found on my GitHub profile: https://github.com/michaelvcolianna

Please ask for samples from the enterprise sites.
